## Why REV UP?

I was attracted to REV UP's unique format of one-hour masterclasses featuring diverse speakers offering various perspectives.

## What was your favourite masterclass?

Maz Farrelly and Sue Langley!

## What did you like most about REV UP?

I consistently engaged with the program, benefiting from strong speakers who provided actionable insights for businesses. The Q&A sessions with speakers were great, and the breakout rooms enhanced my learning experience by allowing me to discuss the session with like-minded individuals.

## What were the main benefits of REV UP?

- My background in health—not sales—has shown me that REV UP lessons are universally applicable, benefiting anyone in a business environment.
- Sue Langley's session changed and broadened my perspective on mental fitness, and improved the way I approach business challenges.
